

September 18, 2015

Greeley, CO- Expedition Water Solutions Colorado LLC (“Expedition”) today announced the grand opening of EWS #3 located in LaSalle, Colorado.

This facility expands Expedition’s permitted injection capacity in the DJ Basin by 23,000 Bbls/d, bringing total permitted injection capacity to 43,000 Bbls/d.

The opening of this facility greatly expands Expedition’s reach in the DJ-Basin, and furthers Expedition’s mission in providing convenient, easily accessible, high-volume facilities to area customers.
